

FXARC ADVANCED REMOTE CONTROL

FXARC is a multi fuction device suitable for the MT and AST variants of luminaires from our FX Lithium range of emergency lighting products and our standard/bespoke led products fitted with this technology.

Our FXARC remote control provides the person responsible for the emergency lighting with the means to check battery life and self-test status. It can also be used to carry out functional and full duration tests.

Key Benefits:

- No 'Test Key Switches' need to be installed; all tests can be carried out using the remote.
- No need to locate test key switches, which are sometimes not where expected
- Luminaires can be tested individually without cutting the power to numerous luminaires
- AST variants can be switched to manual mode if required, where self-test is not desirable.
- Battery life can be measured to assist forward planning of maintenance

Remote Control Functions:

FUNCTIONS FOR "self-test" VERSIONS:

- 1. Press "TEST" to carry out a Functional Test
- 2. Press "MT ON" to initiate a Full Duration Test*
- 3. Press "MT OFF" to interrupt Full Duration Test
- 4. Press "BAT CHK" to check status of battery's health.**
- 5. Press "AST OFF" to disable self-test function
- 6. Press "AST ON" to enable self-test function
- 7. Press "AST CHK" to to verify status of self-test function

After each button press the indicator will flash GREEN/RED
to acknowledge the command

- * Note that when the Full Duration Test is completed the batteries require up to 8 hours to be re-charged again.
- ** Note that battery status is recorded and updated after full duration test is completed .

= Slow flash 0.5Hz

= Normal flash 1Hz (once/second)
= Fast flash 2Hz (twice/second)

Flashing Code for Self-Test check (Function-7)

RED/GREEN LED	1x Green/Red	Self-test enabled	
Indicator	2x Green/Red	Self-test disabled	

Flashing Code for Fault condition (Function-1)

GREEN/RED LED Indicator	•	0	Status OK - battery charged
	•	0	Battery charging
	0		Battery disconnected/duration test fail
	©	0	Test in progress
	0	©	Battery outside temperature range
	0	O	Load/light source fault

Flashing Code for Battery Health Check (Function-4)

	Flashing Sequence	Battery Status (emergency lighting duration)	Approx. Capacity Reserve
	4x Green/Red 0 0 0 0 0 0 0	Battery not yet tested (status will be available after first full duration test)	-
GREEN/RED LED Indicator	1x Green/Red	duration > 3hr 30min	Excess capacity > 16%
	2x Green/Red	3hr 15min < duration < 3hr 30min	Excess capacity < 16% > 8%
	3x Green/Red	3hr < EM duration < 3hr 15min	Excess capacity < 8% > 0%
